

QA: Is There Life On Other Planets? by [John T Polk II](#)

All Scriptures and comments are based on the **New King James Version**, unless otherwise noted.

QUESTION: Is there life on other planets?

ANSWER: Only in the Godless minds of Evolutionists!

1. **God "formed the earth and made it ... to be inhabited" (Isaiah 45:18)**. Our world, and ourselves, are solid, dramatic proof that God Created it this way!

For since the creation of the world His invisible attributes are clearly seen, being understood by the things that are made, even His eternal power and Godhead, so that they are without excuse. (**Romans 1:20**)

There is no proof, evidence, or reason to believe that life, as we know it, exists elsewhere!

2. **"Life" is determined as God Created it on Earth.** According to the God Who was "in the beginning," inanimate Earth, water, light, darkness, and sky were made before life began. Then, on the third day of the Creation, God made vegetation to grow from the dirt (**Genesis 1:9-13**), necessitating the lights to aid that growth the next day (**Genesis 1:14-19**). Then, and then only, did God add "living creatures" in the seas and on the dry land of the Earth (**Genesis 1:20-31**). The human body was given "the breath of life" (**Genesis 2:7**), which makes us different from animals.
3. **Water in other places in space cannot not prove there is/ was life without the Evolutionary fantasy being put into place.** *Water on earth has not proved Evolution to be true.* The Creator, God, has destroyed Evolution throughout the Bible, like He has in this one passage:

All flesh is not the same flesh, but there is one kind of flesh of men, another flesh of animals, another of fish, and another of birds. There are also celestial bodies and terrestrial bodies; but the glory of the celestial is one, and the glory of the terrestrial is another. There is one glory of the sun, another glory of the moon, and another glory of the stars; for one star differs from another star in glory. (**1 Corinthians 15:39-41**)

- a. Even on Earth, Science and Medicine have proven that animal and human flesh are not the same.
- b. Mankind are not the top of some imaginary Evolutionary "scale," having developed from apes or other animals!
- c. Different "flesh" are not merely variations of the same, though having some of the same elements and characteristics. Because Evolution is Idolatry, Evolution's

fiction gives credence to produce the same half-human, half-animal creatures as Idolators have generated for centuries!

d. What is true of life on our terrestrial Earth cannot be said to be true of Celestial bodies, such as the sun, moon, and stars. Those were each made for a different purpose (**Genesis 1:14-19**), but "living creatures" were created on Earth, which sustains that life (**Genesis 1:20-31**).

4. Just for the sake of argument, if there is life on other planets, what difference should that make for us on Earth? Considering how low, foul and animal-like Evolution seeks to make all our behaviors, why would any life form in space want to make contact with us? Just saying!
